PUBLIC SERVICE
COMMISSION

Dear Sir:

The Board of Directors of Hillcrest Memorial Park has reviewed the letter of March 26, 1998 concerning Case No. 98-139 dealing with the application of Powertel/Kentucky, Inc. to erect a personal communications service facility off Village Drive in Lexington, on property which is adjacent to the west boundary of Hillcrest Memorial Park.

The Board of Directors of Hillcrest Memorial Park strongly objects to this proposal. From the engineering drawings supplied to us it appears that a 172 foot tower would be erected a short distance from the west boundary of Hillcrest. This area of the cemetery has hundreds of burials reaching back to 1927 and hundreds of visitors coming out to visit their loved ones. Also, the workers who take care of the grounds are working in this area at all times of the year. It would appear that a communications tower would be a potential hazard when large groups of people are present for funerals and during heavy visitation time when many people are simply visiting their loved ones. Along with the potential hazard there is also a problem of esthetics in placing this type of facility so close to property which has been in continuous use since 1927 by families who are highly sensitive to the surrounding environment.

We appreciate your notice of this proposed action and herewith register our strong objection to the proposal Case 98-139.

Sincerely,

A handwritten signature in cursive script that reads "Ruth Hinkle Kusche".

Ruth Hinkle Kusche, President
Hillcrest Memorial Park Board of Directors
